Re: FASB ASC 965 (previously SOP 92-6 (as amended)) Actuarial Valuation Report

Dear Trustees:

As requested, we have completed an actuarial valuation to determine the Postretirement Benefit Obligations as of December 31, 2018 for the FELRA and UFCW Health and Welfare Fund ("Plan"). The following sections contain the information the auditors need to prepare the disclosure section of the annual report.

Section I contains the summary of the results for the fiscal years ending December 31, 2017 and December 31, 2018.

Section II contains the Postretirement Benefit Obligations financial statement information for the fiscal years ending December 31, 2017 and December 31, 2018, including a statement of changes in the Postretirement Benefit Obligations during the year ending December 31, 2018. This section contains most of the information about the Plan that is needed for the preparation of the disclosure section of the annual report.

Section III contains an exhibit showing the next 15 years of expected benefit payments from the Plan, net of retiree contributions.

The appendices contain a summary of the participant data, a description of assumptions and methods used in calculating the disclosure items, a summary of the substantive plan provisions, and definitions of some of the terms used in the FASB ASC 965 (previously SOP 92-6 (as amended)).

For this Plan, the liabilities show a net decrease from the prior year of around 2.1%, as shown in Section I and II of this report. The liabilities decreased primarily slightly larger decreases in population than expected and also because the Plan remains closed to new actives, resulting in benefit payments being larger than the increase in liability from the passage of time.

This report does not reflect future changes in benefits, penalties, taxes, or administrative costs that may be required as a result of the Patient Protection and Affordable Care Act of 2010, related legislation, or regulations.

In preparing our report, we relied on information (some oral and some written) supplied by Associated Administrators, LLC, the Plan's third-party administrator. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23. The December 31, 2018 figures presented in this report are the result of a roll-forward valuation from the prior year, applying the same actuarial assumptions and methods as in the prior year.

Actuarial computations provided in this report are for purposes of fulfilling employee benefit plan financial disclosure requirements. The calculations reported in the enclosed exhibits have been made on a basis consistent with our understanding of FASB ASC 965 and with the associated Actuarial Standards of Practice. Determinations for purposes other than meeting the employee benefit Plan's financial disclosure requirements (for example, establishing a long-term funding strategy) may be significantly different from the results in this report.

The results of this report rely on future plan experience conforming to the underlying assumptions and methods outlined in this report. Future results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and changes in plan provisions or applicable law.

This report was prepared solely for the FELRA and UFCW Health and Welfare Fund for the purposes described herein and for the use by the Plan Auditor in completing an audit related to the matters herein. Other users of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to any other user.

This report has been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. Furthermore, as credentialed actuaries, we collectively meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys and our firm does not provide any legal services or advice.

Trustees of the FELRA and UFCW Health and Welfare Fund

FELRA AND UFCW HEALTH AND WELFARE FUND
FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018

SECTION I – SUMMARY OF RESULTS

We have completed a valuation of the FELRA and UFCW Health and Welfare Fund as of December 31, 2018. In this section of the report, we compare key results from this valuation with those from the previous valuation as of December 31, 2017.

Table 1
FELRA and UFCW Health and Welfare Fund
FASB ASC 965 Postretirement Health & Welfare Benefit Obligations

	December 31, 2017	December 31, 2018	Percent Change
Number of Participants			
• Eligible Actives	775	720	-7.1%
• Retirees and Dependents	4,769	4,540	-4.8%
• Total	5,544	5,260	-5.1%
Postretirement Benefit Obligations (in thousands)	\$ 408,602	\$ 400,024	-2.1%
Actual Benefits Paid (net of part. contrib.) for FYE	\$ 18,964	\$ 18,429	-2.8%
Estimated Net Benefits Paid for next year	\$ 22,537	\$ 23,110	2.5%
Incurred But Not Paid Claims (in thousands)	\$ 14,871	\$ 13,526	-9.0%

**FELRA AND UFCW HEALTH AND WELFARE FUND
FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018**

SECTION I – SUMMARY OF RESULTS

Changes in Participation

This is a closed group of active employees, the majority of which are now eligible to retire immediately, and therefore are decreasing. Retirees and dependents have also decreased.

Benefit Changes

None

Changes in Actuarial Assumptions

None

SECTION III – BENEFIT PAYMENTS

Below are the projected benefit payments for medical and pharmacy benefits that we anticipate for the current retirees and current active participants after they retire for the next 15 years. Our actual postretirement benefit obligation is based on the next hundred plus years of benefit payments for participants currently employed or retired.

Table 3 FELRA and UFCW Health and Welfare Fund FASB ASC 965 Postretirement Health & Welfare Benefit Obligations <i>Expected Benefit Payments</i>				
Fiscal Year Ending December 31st	Non-ERISA Gross Benefit	ERISA Gross Benefits	Participant Contributions	Net Benefits
2019	\$ 6,403,000	\$ 20,884,000	\$ 4,177,000	\$ 23,110,000

FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018

APPENDIX B ■ ASSUMPTIONS AND METHODS

Economic Assumptions

1. *Measurement Date:* December 31, 2018
2. *Discount Rate:* 3.50% per annum
3. *Per Person Cost Trends:*

Calendar			
Year	ME Medical	Rx	Capitated
2019	2.46%	3.60%	3.50%
2020	5.30%	7.00%	3.50%
2021	5.15%	6.71%	3.50%
2022	5.00%	6.42%	3.50%
2023	4.85%	6.13%	3.50%
2024	4.70%	5.83%	3.50%
2025	4.55%	5.54%	3.50%
2026	4.40%	5.25%	3.50%
2027	4.25%	4.96%	3.50%
2028	4.10%	4.67%	3.50%
2029	3.95%	4.38%	3.50%
2030	3.80%	4.08%	3.50%
2031	3.65%	3.79%	3.50%
2032+	3.50%	3.50%	3.50%

No trend is applied to the pre-Medicare Subsidy amount.

4. *Participant Contribution Trend:*

Since retiree contributions are assumed to cover a percentage of Medicare retiree costs, the trend is a mixture of the trends in the table above eventually reaching an ultimate rate of 3.5% per annum.

Demographic Assumptions

1. *Rates of Disability:*

Terminations of employment for disability are assumed to be equal to 50% of the Group Long-Term Disability Insurance Crude Rates of Disablement for males published in the Transactions of the Society of Actuaries, 1979.

Illustrative rates follow.

Number Expected to Become Disabled Annually Per 1,000	
Age	
25	0.3
30	0.3
35	0.4
40	0.7
45	1.4
50	2.7

FELRA AND UFCW HEALTH AND WELFARE FUND
FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018

APPENDIX B ■ ASSUMPTIONS AND METHODS

2. Rates of Turnover:

Terminations of employment for reasons other than death, disability, or retirement are assumed to be in accordance with annual rates as shown below.

Number Expected to Terminate Annually Per 1,000		
<u>Service</u>	<u>Males</u>	<u>Females</u>
0	400	400
1	220	220
2	180	180
3	150	150
4	130	130
5	120	120
6	110	110
7	105	105
8	90	90
9	90	90
10	90	90
11	80	80
12	80	80
13	80	80
14	70	70
15	70	70
16	70	70
17	50	50
18	50	50
19	50	50
20	40	40
21	30	30
22 and over	25	25

3. Rates of Retirement:

Tier I rates of retirement depend on whether a participant has fewer than 30 years of service or more than 30 years of service.

Number Expected to Retire Annually Per 1,000		
<u>Age</u>	<u>Less than 30 years</u>	<u>Over 30 years</u>
50	0	200
51	0	200
52	0	200

64	200	400
65	300	400
66	300	400
67	200	400
68	200	400
69	200	400
70 and over	1,000	1,000

**FELRA AND UFCW HEALTH AND WELFARE FUND
FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018**

APPENDIX B ■ ASSUMPTIONS AND METHODS

4. Rates of Mortality:

Active mortality is based on the sex distinct RP-2000 Combined Healthy tables.

Active:

RP-2000 Combined Healthy mortality table for males and females.

Healthy Inactive:

RP-2000 Healthy Annuitant mortality table set forward one year for males and no adjustment for females. The mortality table for active lives is used prior to age 49 for males and age 50 for females, but set forward one year for males.

Disabled:

RP-2000 Disabled Annuitant for ages prior to 65. The same mortality as Healthy Inactives for ages 65 and older.

Past experience has shown more deaths have occurred than assumed, which has yielded liability gains attributable to this experience. Therefore, the current assumption includes a margin for future mortality improvements. This will continue to be monitored and adjustments will be made when necessary.

5. Disabled Participants:

Members were considered to be disabled retirees if they were disabled as of 2018 medical information.

6. Retiree dependent coverage:

Dependent coverage was provided to all members who had a spouse in the 2018 census information.

7. Percent of Retirees Electing Coverage:

We assume that 100% of new non-Medicare retirees and 80% of new Medicare-eligible retirees elect to join this program.

8. Retiree Contributions:

Retiree contributions are assumed to cover 20% of total costs of the ERISA fund.

9. Dependent Age:

For future retirees, a male spouse is assumed to be three-years older than the female spouse. Actual ages are used for dependents of current retirees.

10. Family Composition:

50% of future retirees are assumed to be married and elect spouse coverage. Male spouses are assumed to be three-years older than female spouses.

11. Pre-Medicare Subsidy Population:

Members receiving a pre-Medicare Subsidy were matched up to the retiree and dependent data to determine continuing of coverage after entering Medicare. Members who were not matched up to the retiree health file were assumed to elect spouse coverage if they had a spouse on file. 80% are assumed to elect coverage upon Medicare eligibility; however, if one family member is currently covered by the fund the election percentage is assumed to be 100%. Pre-Medicare Subsidy Members who did not match to known health or pension information were assumed to have an average age of 59.5.

FELRA AND UFCW HEALTH AND WELFARE FUND
FASB ASC 965 (PREVIOUSLY SOP 92-6 (AS AMENDED)) ACTUARIAL VALUATION REPORT AS OF DECEMBER 31, 2018

APPENDIX B ■ ASSUMPTIONS AND METHODS

12. Rationale for demographic assumptions:

Assumptions are based on the latest experience study review performed in 2007. The results of that study are incorporated here by reference. The assumptions continue to be closely monitored and Cheiron is proposing that an experience study be performed in the near future.

Claim and Expense Assumptions

1. Claims Costs:

The claims costs were based on actual retiree experience for July 1, 2017 through June 30, 2018 and on actual 2018 per capita expenses. Kaiser claim costs are based on the actual 2018 and 2019 premium rates. Kaiser HMO Medicare rates are assumed to be 50% medical and 50% pharmacy.

Category	Age	Total	Medical	Drug	Capitated
Participant*	60	\$ 4,200.00	n/a	n/a	n/a
HMO Participant Disabled	60	3,078.69	1,104.49	1,492.86	481.35

Participant	70	3,874.75	1,301.93	2,572.83	-
Participant Disabled	70	5,625.71	1,814.97	3,240.85	569.89
Dependent	70	2,892.62	1,154.01	1,738.61	-
Participant	75	4,089.59	1,573.66	2,515.93	-
Participant Disabled	75	5,932.85	2,193.78	3,169.18	569.89
Dependent	75	3,083.55	1,383.40	1,700.16	-
Participant	80	4,179.52	1,861.07	2,318.45	-
Participant Disabled	80	6,084.77	2,594.46	2,920.42	569.89
Dependent	80	3,197.26	1,630.56	1,566.71	-

*Each retiree household receives \$350 per month until each member becomes Medicare eligible.

Dependent amount applies only if retiree is Medicare eligible.

Surviving spouses receive \$200 per month until Medicare eligible.

Each Safeway retiree household receives an extra \$50 per month.

2. Expense Load:

Expenses are included in the capitated rates. The pre-Medicare subsidy is loaded 2.5% for expenses.

3. Medicare Part D Subsidy:

2016 Actual RDS subsidy was used to estimate future subsidies. Claim costs shown are net of subsidies.

4. Medicare Part B Premiums:

We assume that each Medicare-eligible person pays their own Medicare Part B premium.

5. Medicare Eligibility

100% of retirees and dependents age 65 or older plus all disabled members.

6. Annual Limitations:

Assumed to increase at the same rates as trends.

7. Lifetime Maximum:

We assumed no one would reach their lifetime maximum.

8. Area:

For Medicare retirees, we assume the 45% will elect the out-of-area plan and 55% will elect the HMO plan.

APPENDIX B ■ ASSUMPTIONS AND METHODS

Summary of Changes Since Last Valuation

None

Methodology

Standard actuarial procedures were used to calculate the figures in this report. These procedures are described in the AICPA's Statement of Position (SOP) 92-6 as modified by SOP 01-2.

The Projected Unit Credit Funding Method as described in paragraph 45 of SOP 92-6 was used to calculate liabilities in this report.

We completed a roll forward valuation this year, meaning that we used the same data, methods, and assumptions as the prior year. We verified that the claims and census experience during Fiscal Year 2018 was within reason of our expectation from the previous report.

Claims for out-of-area participants were calculated using the experience through June 2018 provided by Associated Administrators, LLC. Medical and pharmacy costs for out-of-area retirees were increased by 3% for medical and 4% for pharmacy to trend them to the calendar year 2018. Expenses were assumed to be priced on a per subscriber basis. We assumed 50% if the Kaiser premium is for pharmacy costs.

Trend assumptions are based on general industry trends. In performing a cursory review of this Plan's trends, we saw nothing that would indicate that the past or future trends are different than general industry trends. However, one exception is the trend for 2019, which reflects that the Kaiser premium rates will not change from 2018 to 2019.

Incurred but not paid claims are based on claims lags provided by the administrator through May 2019 plus 1/3 of pharmacy claims for the first quarter 2019 as reported in the Administrative Manager's Report.

We did not make any adjustments or comments for future changes that may be required by the Patient Protection and Affordable Care Act of 2010 or related legislation or regulations.

.

APPENDIX C – SUMMARY OF PLAN PROVISIONS

This section summarizes the current plan provisions; however, benefits are subject to bargaining and could change.

Eligibility

Eligible:

- Majority of service Tier I immediate retirees who meet the age and service requirement for pension benefits and are at least age 55 and have 20 years of service or have 30 years of service regardless of age.
- Members receiving a disability pension benefit from the FELRA and UFCW Pension Plan.
- Dependents of covered retirees if covered while active.
- Widow(er)s of pre-1/1/1984 meat department retirees.
- Special rules apply for part-time retirees who retired prior to 10/1/1992.

Ineligible:

- Tier II participants.
- Terminated vested participants.
- Participants who retire frozen credited service, but do not meet the requirement above.
- Dependents of deceased retirees except COBRA and pre-1/1/1984 meat department retirees.
- Effective 8/1/2011, SuperFresh retirees with the exception of those currently employed by two stores.

Current Retiree Contribution Amounts

Retirees must make a monthly copayment to maintain eligibility for health and welfare benefits. The monthly copayments are negotiated by the Trustees. The current agreement is that the retiree will pay 20% of the total cost. If experience demonstrates that the retirees pay more or less than 20%, then that experience is accounted for in future retiree copayment calculations at the Trustees' discretion.

The non-Medicare retiree benefits are a flat dollar subsidy (\$400 per non-Medicare family for Safeway retirees, \$350 per non-Medicare family for other retirees, \$200 per surviving spouse).

Conversions and/or COBRA self pays that pay 100% of their costs have been excluded from these calculations.

APPENDIX D – DEFINITION OF TERMS

Definition of Terms

Postretirement Benefit Obligation (PBO):

The PBO is the same as the APBO defined below.

Expected Postretirement Benefit Obligation (EPBO):

The EPBO is the actuarial present value of the benefits expected to be paid to or for an employee, the employee's beneficiaries, and any covered dependents, pursuant to the terms of the Postretirement Benefit Plan.

Accumulated Postretirement Benefit Obligation (APBO):

The APBO is the portion of the EPBO allocated to service rendered prior to the measurement date, based on the accrual period defined by the accounting standards. (This is equivalent to the "projected benefit obligation" of SFAS 87.) For an employee who is not fully eligible for the postretirement non-pension benefits, the APBO will be less than the EPBO. After the date of becoming fully eligible, the APBO and the EPBO will be the same.

Substantive Plan:

The terms of the Postretirement Benefit Plan as understood by a fund that provides postretirement benefits and the participants who render services in exchange for those benefits. The substantive plan is the basis for the accounting for that exchange transaction. In some situations, an employer's cost-sharing provisions, or past practice of regular increases in certain monetary benefits, may indicate that the substantive plan differs from the extant written plan. Minor negotiated benefit changes that occur after the valuation date are not considered. An example would be changing providers or HMOs.

Plan Amendment:

A change in the existing terms of a plan. A plan amendment may increase or decrease benefits, including those attributed to years of service already rendered. Our understanding of the substantive plan is that there are typically periodic changes to the dollar limits to keep up with inflation, and to the level of care management depending upon market availability. We have not considered such changes to be plan amendments. We would, however, consider plan amendments to include changes such as modifications to the eligibility requirements or changes to the retiree copay policy.
