UFCW Unions and Participating
Employers Pension Fund
c/o Mr. William Jensen
Associated Administrators, LLC
4301 Garden City Drive, Suite 201
Landover, Maryland 29785-2210

Dear Board of Trustees:

At your request, we have performed the January 1, 2016 Actuarial Valuation of the UFCW Unions and Participating Employers Pension Fund.

This report contains information on the Fund's assets and liabilities and discloses contribution levels, including the minimum required amount as mandated by Federal law.

Your attention is called to the foreword section in which we refer to the general approach employed in the preparation of this report. We also comment on the sources and reliability of both the data and the actuarial assumptions on which our findings are based. Those comments are the basis for our certification that this report is complete and accurate to the best of our knowledge and belief. The results of this report are only applicable to the 2016 Plan Year and rely on future fund experience conforming to the underlying assumptions. To the extent that actual fund experience deviates from the underlying assumptions, the results would vary accordingly.

We hereby certify that, to the best of our knowledge, this report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys and our firm does not provide any legal services or advice.

This Actuarial Valuation Report was prepared for the UFCW Unions and Participating Employers Pension Fund for the purposes described herein and for use by the plan auditor in completing an audit related to the matters herein. Other users of this document are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to any other user.

Sincerely,
Cheiron

Peter Hardcastle, FSA, EA
Principal Consulting Actuary

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

FOREWORD

Cheiron has performed the Actuarial Valuation of the UFCW Unions and Participating Employers Pension Fund as of January 1, 2016. The purpose of this report is to:

- 1) Measure and disclose**, as of the valuation date, the current and projected financial status of the Fund, and
- 2) Provide specific information** and documentation required by the Federal Government and the auditors of the Fund.

An actuarial valuation establishes and analyzes fund assets, liabilities, and contributions on a consistent basis and traces the progress of both from one year to the next. It includes measurement of the fund's investment performance as well as an analysis of actuarial liability gains and losses.

Section I presents a summary of the valuation and compares this year's results to last year's results.

Section II contains exhibits relating to the valuation of assets.

Section III shows the various measures of liabilities.

Section IV shows the development of the minimum and maximum contributions.

Section V contains withdrawal liability information.

Section VI provides information required by the Fund's auditor.

The appendices to this report contain a summary of the Fund's membership at the valuation date, a summary of the major provisions of the Fund, and the actuarial methods and assumptions used in the valuation. Since the prior valuation, there have been no changes in the benefit provisions or assumptions.

In preparing our report, we relied on information (some oral and some written) supplied by Associated Administrators, LLC, PNC Bank, and Bond Beebe. This information includes, but is not limited to, the plan provisions, employee data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

The actuarial assumptions, when analyzed individually, reflect our understanding of the likely future experience of the Fund. The results of this report are dependent upon future experience conforming to these assumptions. Future experience may differ significantly from the current assumptions presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and changes in plan provisions or applicable law.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION I - SUMMARY

The table below sets out the principal results of this year's valuation and compares them to last year's results.

Table I -1 UFCW Unions and Participating Employers Pension Fund Summary of Principal Results			
	1/1/2015	1/1/2016	Change
Participant Counts			
Actives	6,931	4,535	-34.6%
Terminated Vesteds	5,520	6,584	19.3%
In Pay Status	<u>2,756</u>	<u>2,762</u>	0.2%
Total	15,207	13,881	-8.7%
Financial Information			
Market Value of Assets (MVA)	\$ 108,617,972	\$ 105,492,584	-2.9%
Actuarial Value of Assets (AVA)	117,488,710	115,991,108	-1.3%
Actuarial Liability	\$ 174,478,044	\$ 193,542,432	10.9%
Surplus (Unfunded Actuarial Liability-AVA basis)	(56,989,334)	(77,551,324)	-36.1%
Present Value of Accrued Benefits/Accrued Liability	\$ 174,478,044	\$ 193,542,432	10.9%
Accrued Benefit Surplus (Unfunded-AVA basis)	(56,989,334)	(77,551,324)	-36.1%
Accrued Benefit Funding Ratio	67.3%	59.9%	N/A
Present Value of Vested Benefits	\$ 172,328,893	\$ 192,156,696	11.5%
Vested Benefit Surplus (Unfunded-MVA basis)	(63,710,921)	(86,664,112)	-36.0%
Vested Benefit Ratio	63.0%	54.9%	N/A
Contributions and Cash Flows			
ERISA Credit Balance (Beginning of Year)	\$ 9,540,521	\$ 6,163,930	-35.4%

ERISA Minimum Required Contribution (End of Year)	11,764,197	13,567,875	15.3%
Prior Year Benefit Payouts	\$ 9,536,899	\$ 10,311,525	8.1%
Prior Year Administrative Expenses	1,457,821	1,840,754	26.3%
Prior Year Total Investment Income (Net)	6,210,738	1,439,555	N/A

* Contributions are estimated.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION I - SUMMARY

General Comments

- The discount rate was reduced from 8.00% to 7.75% to reflect the investment consultant's outlook for the likely return based on the fund's investment policy asset allocation. This resulted in an increase in the liability of about \$5.2 million.
- The mortality table was updated to include an allowance for future mortality improvements. This increased the liability by \$5.7 million.
- The market value of assets returned 1.4%, compared to the 2015 assumed return 8.00%.
- For determining minimum required contributions, the Fund uses a smoothed actuarial value of assets. The rate of return on an actuarial value basis was 2.3%, resulting in an actuarial investment loss of \$6.3 million for minimum funding purposes.
- The Fund experienced a liability gain of \$1.0 million.
- When the liability gain is combined with the actuarial investment loss, the Fund experienced a total net actuarial loss of \$5.3 million. For determining the minimum required contribution a charge base is established equal to the net loss which will be amortized over 15 years.
- Due to the assumption changes and the asset and liability experience the ERISA minimum required contribution has increased by 15.3% since last year to \$13,567,875.
- The Fund's funding ratio (actuarial value of assets as a percentage of accrued liability) decreased from 67.3% as of January 1, 2015 to 59.9% as of January 1, 2016. Based on the market value of assets, the funding ratio decreased from 62.3% to 54.5%.
- The unfunded vested benefits used in calculating withdrawal liability (vested benefits on a funding basis and market value of assets) have increased from \$116.7 million in the previous year to \$159.6 million.
- The Fund's actuarial certification under the Pension Protection Act was filed on March 30, 2016. The Fund was certified to be in Critical status. The Fund has adopted an updated Rehabilitation Plan.
- Since the valuation date, the Fund has experienced three notable events; the withdrawal of Boar's Head, a transfer-in of assets and liabilities for a group of Shopper's Food Warehouse participants, and a transfer-out of assets and liabilities for the Kroger participants. Both the transfers were made with the UFCW Consolidated Pension Fund. Because these events took place after the valuation date Boar's Head is treated in this report as a contributing employer, the Kroger participants are valued as inactive participants (Kroger withdrew from the Fund in 2015), and the Shopper's transferees are not valued.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION I - SUMMARY

Historical Review

The graph below shows the assets and liabilities of the Fund over the last ten years. The gold bars represent the value of accrued liability used for testing the Fund's PPA status. The green line represents the actuarial value of assets (AVA) and the blue line represents the market value of assets (MVA). The Fund's funding ratio (actuarial assets as a percent of accrued liabilities shown along the top) has decreased over the period to its current level of 60%.

The graph that follows shows the participants of the Fund at successive valuations. The numbers above the bars on the graph indicate the ratio of inactive participants to active full-time and part-time participants (FT and PT). The higher the ratio, the greater the burden that additional costs have on actives to meet the cost of benefits. The increase in this value over the last decade means there is an increasing population of non-active participants relative to the active participants covered by the Fund. As you can see, this ratio has increased from 1.2 in 2015 to 2.1 in 2016. This is due to Kroger withdrawing from the Fund prior to January 1, 2016.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION I - SUMMARY

The next graph shows the contributions paid to the Fund (yellow line), the minimum required contribution before the credit balance (red line), and the credit balance (gray area).

For most of the period shown the credit balance has increased because increases in bargained contributions and minimum funding requirements have been consistent with each other. However, recently there has been a significant increase in the minimum required contribution and a significant decrease in contributions. Consequently, there was a decrease in the credit balance. Decreases will continue in the future while the contributions are less than the minimum required contribution.

The next graph shows the Fund's net cash flow (black line) as contributions (yellow bars) less benefit payments and expenses (red bars). This is a critical measure, as a negative net cash flow means the Fund needs to use investments to meet benefit payments while a positive cash flow enables the Fund to absorb the impact of market fluctuations without having to liquidate assets to pay benefits in down markets which helps support a long-term investment strategy. The Fund's net cash flow has been negative for the majority of the period shown.

ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION II - ASSETS

Assets at Market Value

Market values represent “snap-shot” or “cash-out” values which provide the principal basis for measuring financial performance from one year to the next.

**Table II - 1
Statement of Assets at Market Value, December 31,
2014 2015**

Invested Assets		
Corporate Stocks	\$ 20,675,043	\$ 18,104,309
Corporate Obligations	7,693,571	7,686,756
U.S. Government Obligations	2,187,619	2,009,977
Temporary Cash Investments	846,229	781,855
Common/Collective Trusts	39,217,033	36,357,966
Mutual Funds	7,299,485	10,908,627
Hedge Funds	15,750,693	13,387,129
Pooled Separate Account	9,953,925	11,292,590

Changes in Market Value

The components of asset change are:

- Contributions
- Benefit payments
- Expenses
- Investment income (realized and unrealized)

The specific changes during 2015 are presented below.

**Table II - 2
Changes in Market Values**

Value of Assets - January 1, 2015	\$ 108,617,972
Employer Contributions	\$ 7,587,336
Investment Return (Gross)	2,157,098
Benefit Payments	(10,311,525)
Administrative Expenses	(1,840,754)
Investment Expenses	(717,543)

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION II - ASSETS

Assets at Actuarial Value

The actuarial value of assets is calculated under a smoothed market value method that phases in asset gains and losses over five years. Details on the method used for determining the actuarial value of assets are provided in Appendix C.

Table II - 3 Actuarial Value of Assets				
Market Value of Assets at January 1, 2016				\$ 105,492,584
Plan Year	Investment Gains / (Losses)	Percent Recognized	Percent Deferred	Amount Deferred
12/31/2009 *	(33,669,746)	80%	20%	(6,733,949)
12/31/2012	2,698,916	80%	20%	539,783
12/31/2013	7,758,753	60%	40%	3,103,501
12/31/2014	(3,366,267)	40%	60%	(2,019,760)
12/31/2015	(6,735,124)	20%	80%	(5,388,099)
Total				\$ (10,498,524)
Preliminary Actuarial value of assets January 1, 2016				\$ 115,991,108
120% of MV, upper limit for actuarial value				\$ 126,591,100
80% of MV, lower limit for actuarial value				\$ 84,394,067
Actuarial value of assets January 1, 2016				\$ 115,991,108

* Ten-year amortization elected for funding relief.

Impact of Investment Performance

The following table calculates the investment related actuarial gain/(loss) and the return for the prior plan year on both a market value and actuarial value basis. The market value return is an appropriate measure for comparing the actual asset performance to the long-term assumption. The actuarial gain/(loss) on the actuarial value basis is one component of the Fund's experience gain/(loss) recognized in minimum funding and incorporates a significant level of smoothing.

Table II - 4		
Item	Market Value	Actuarial Value
January 1, 2015 Value	\$ 108,617,972	\$ 117,488,710
Employer Contributions	7,587,336	7,587,336
Benefit Payments	(10,311,525)	(10,311,525)
Administrative Expense	(1,840,754)	(1,400,000)
Expected Investment Earnings (8%)	8,174,679	8,919,599
Expected Value December 31, 2015	\$ 112,227,708	\$ 122,284,120
Investment Gain/(Loss)	(6,735,124)	(6,293,012)
January 1, 2016 Value	\$ 105,492,584	\$ 115,991,108
Return	1.35%	2.28%

ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION III - LIABILITIES

In this section, we present detailed information on fund liabilities including:

- **Disclosure** of fund liabilities at January 1, 2015 and January 1, 2016; and
- Statement of **changes** in these liabilities during the year.

Disclosure

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the purpose for which they are being used.

- **Actuarial Liabilities:** Used for ensuring minimum funding standards are met, this liability is determined using an actuarial funding method to apportion the Present Value of Future Benefits between the past and the future. For this Fund, that method is Unit Credit. The actuarial liability under the Unit Credit Cost Method represents the total amount of money needed to fully pay off all future obligations of the Fund, assuming no further accrual of benefits.
- **Accrued Liabilities:** Used for communicating the current level of liabilities, this liability is the same as the actuarial

liability determined using the Unit Credit Cost Method. These liabilities are required for determining PPA funded status and for accounting disclosures (FASB ASC 960). For that purpose they are referred to as the present value of accumulated benefits. They can also be used to establish comparative benchmarks with other plans.

- **Vested Liabilities:** Used for administrative purposes in determining employer withdrawal liability. This liability represents that portion of the accrued liabilities which are vested. These are developed using withdrawal liability assumptions which are different than the funding assumptions.
- **Current Liabilities:** The calculation of this liability is defined by the Internal Revenue Code. It is used to determine the maximum allowable tax deductible contributions.

The table on the following page discloses each of these liabilities for the current valuation and the prior one. With respect to each disclosure, a subtraction of the appropriate value of fund assets yields, for each respective type, a net surplus or an unfunded liability.

UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION III - LIABILITIES

Changes in Liabilities

Each of the liabilities shown in the prior table is subject to change at successive valuations as the experience of the Fund varies from that assumed in the valuation. The liabilities may change for any of several reasons including:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments
- Interest on liabilities
- Benefits paid to retirees
- Participants leaving employment at rates different than expected
- Changes in actuarial assumptions
- Changes in actuarial methods
- Corrections to participant data records.

Table III - 3	
	Actuarial / Accrued Liability
Liabilities 1/1/2015	\$ 174,478,044
Liabilities 1/1/2016	193,542,432
Liability Increase (Decrease)	19,064,388
Change due to:	
Plan Amendment	\$ 0
Assumption Change	10,874,036
Accrual of Benefits	2,429,403
Benefit Payments	(10,311,525)
Passage of Time	13,748,070
Data changes	3,311,325
Actuarial (Gain)/Loss	(986,921)
Total Change	19,064,388

UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016

SECTION IV - CONTRIBUTIONS

In this section, we present detailed information on the Fund's contributions from two perspectives:

- **Actuarially determined contributions** and
- **Government Limitations**, which could affect the above.

Actuarially Determined Contribution

For this Fund, the actuarial cost method used for developing the actuarially determined contribution is the **Unit Credit Cost Method**. This amount, which can also be considered as the actuarial cost, is determined in two parts.

The first part is the Unit Credit Normal Cost. This is the cost to the Fund of providing the benefit expected to be earned in the current year for each active participant. It also includes an estimated administrative expense assumption.

The second part is an amortization payment to pay off the unfunded actuarial liability. The unfunded actuarial liability is the difference between the actuarial assets of the Fund at the valuation date and the assets the Fund should hold as determined by the actuarial cost method. The amortization amount is determined by the amortization schedule established by the IRS minimum funding rules. Consequently, the actuarially determined contribution and cost are the same as the minimum required contribution.

Government Limitations

ERISA and the IRS tax code place various limits on the contributions made to qualified pension plans. The limits impact the minimum that must be paid, the maximum that can be deducted and the timing of contributions.

To ensure that minimum contribution requirements are met, pension plans are required to retain an Enrolled Actuary to complete Schedule MB to Form 5500 on an annual basis. Because the bargained contributions have exceeded the minimum required contribution in years past, the Fund has built up a credit balance. The credit balance can be used in future years to make up any difference between the minimum required contribution and employer contributions.

The actuarially determined contribution for 2016, which can also be considered the actuarial cost for 2016, is shown on the next page. This is compared to the various Government Limitations and estimated employer contributions. The table also shows the per capita actuarial cost and employer contribution. Note that the per capita cost is based on the current year's amortization payment. This cost will fluctuate from year to year as amortization charges and credits are added and fully paid off.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

SECTION V - WITHDRAWAL LIABILITY

The Multi-Employer Pension Plan Amendments Act of 1980 (MPPAA) provides that a contributing employer who withdraws from a multi-employer pension plan, either partially or totally, will be liable to the Fund for a proportionate share of the Fund's total Unfunded Vested Benefits (UVB) that exist as of the end of the plan year prior to the year in which the withdrawal occurs.

The present value of vested benefits for this purpose is a blend of the liability determined using the December 31, 2015 assumptions used by the Pension Benefit Guaranty Corporation (2.46% for 20 years and 2.98% thereafter) and the liability determined using the Fund's funding investment return of 7.75%. The blended liability used is based upon the percentage of PBGC liability amounts covered by the market value of assets. Calculation of the Fund's total UVB is shown below.

Table V-1 Calculation of the Unfunded Present Value of Vested Benefit for Withdrawal Liability Purposes for Plan Year Starting January 1, 2016			
1. Present value of vested benefits at funding investment return rate			
Retired	\$	85,586,757	
Terminated Vested		53,022,259	
Active		53,547,680	
			\$ 192,156,696
2. Present value of vested benefits at PBGC interest rate			
Retired	\$	164,275,155	
Terminated Vested		236,839,534	
Active		199,919,228	
			\$ 601,033,917
3. Assets at market value*			\$ 101,714,043
4. Weighting factor: (3)/(2), not greater than 1.0			0.169232
5. Present value of vested benefits for withdrawal liability purposes: [(2) x (4) + (1.000000 - (4)) x (1)]			\$ 261,351,806
6. Unfunded present value of vested benefits for withdrawal liability purposes: [(5) - (3)]			\$ 159,637,763

* Net assets available for benefits minus withdrawal liability receivables from audited financial statements.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX A - MEMBERSHIP INFORMATION

The data for this valuation was provided electronically by Associated Administrators, LLC (AA). Cheiron did not audit any of the data. The data is as of January 1, 2016. Below is a list of assumptions Cheiron made in using the data this year. We continue to work closely with AA to work out all of the intricate data details and expect to require fewer assumptions in future years.

Date of Birth for Active Employees

For active participants with bad or missing dates of birth, we have imputed a date of birth based on the assumption that they entered the Fund at the average hire age of the participants in their group. These average hire ages are as follows:

Full-Time/ Part-Time	Sex	Average Hire Age
Full-Time	Male	47
Full-Time	Female	49
Part-Time	Male	36
Part-Time	Female	43

Full-Time/Part-Time Status

Full-time versus part-time status is not included in the data provided to Cheiron. Participants are assigned full-time versus part-time status based on whether the majority of their service worked since date of hire was full-time or part-time as reported in the valuation data supplied by Associated Administrators.

The following is a list of data graphs contained in this section:

- Status Reconciliation
- Age/Service Distribution for Full-Time Active Participants
- Age/Service Distribution for Part-Time Active Participants
- Counts and Average Benefit Amount by Age for Retirees, Beneficiaries, and Disabled Participants
- Counts and Average Benefit Amount by Age for Terminated Vested Participants

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

A. Former Meat and Poultry Participants

1. Eligibility

All employees formerly covered by a collective bargaining agreement requiring contributions by employers (including the Local Union) to the Amalgamated Meat Cutters and Allied Workers of North America Local Union No. 593 and Washington Wholesalers Pension Fund participate in the plan. As of January 1, 2007, the Fund was merged with the UFCW Unions and Participating Employers Pension Fund.

2. Credited Service

Credited service consists of the total past and future service as defined below.

a. Past Service

Past credited service is based on completed years and months of continuous employment with a participating employer prior to the employer's participation date (January 1, 1966 for employers participating under the Amalgamated Meat Cutters agreement and April 1, 1975 for employers participating under the Poultry Workers agreement).

b. Future Service

Future credited service is expressed in terms of years (and fractional years) of employment on or after January 1, 1966 during which an employer is required to make contributions to the Fund. The following schedule is applicable for determining future credited service:

<u>Hours</u>		Future Service Credit
At Least	But Less Than	
400	600	0.3
600	800	0.4
800	1,000	0.5
1,000	1,200	0.6
1,200	1,400	0.7
1,400	1,600	0.8
1,600	1,800	0.9
1,800 and over		1.0

Contributions are made and credit given for the Meat Cutters for 173 hours in any month a participant works 134 or more hours. No employee will be credited with more than one year of future credited service in one calendar year.

Credited service for calculating benefit amounts may not exceed 40 years.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

3. Vesting Service

Vesting service for Meat Cutters is the total of past and future credited service.

Vesting service for Poultry Workers is future credited service.

In all cases, one year of vesting service is granted for each year of future credited service in which the participant works at least 1,000 hours.

4. Loss of Credited Service

A participant who has fewer than five years of vesting credit will lose all of his previously accumulated credited service if, before qualifying for and making an application for benefits, he suffers at least three consecutive breaks in service (works less than 500 hours). An exception is made for service in the armed forces in time of war, national emergency or pursuant to a national conscription, provided he returns to active service as an employee within 90 days after release or within such longer period as is prescribed by law. A participant who has lost all of his credited service is considered a new participant at such time as subsequent contributions are made to the pension trust on his behalf.

5. Reinstatement of Service Credits

A former participant who ceases to participate after January 1, 1976 and again becomes a participant may reinstate his prior service and benefit accruals. Reinstatement of prior benefit accruals will be as of the last day of the 12-month period following completion of 1,000 hours with the employer in:

- a. the 12-month period commencing with the date of his return, or
- b. the 12-month period in the plan year following the date of his return, or
- c. any subsequent plan year, provided that (i) the number of consecutive years between the last break in service and the beginning of the plan year in which he fulfills the 1,000-hour requirement was less than his prior vesting service, or (ii) the participant accumulates at least five years of future service following resumption of participation.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

6. Normal Retirement Benefit

Eligibility: A participant is eligible for a normal retirement benefit upon satisfying all of the following conditions:

Age: 60
Credited Service: 5
Future Credited Service: 1

Benefit: The monthly benefit at normal retirement is a dollar amount multiplied by credited service. The dollar amount varies by employer as follows:

Employer	Monthly Benefit Per year of Service
Boar's Head	\$ 6.25
All Others	\$ 38.00

7. Late Retirement

Eligibility: A participant who remains in employment beyond his normal retirement date is eligible to receive a late retirement benefit commencing on the first day of the month following or coinciding with his actual retirement date.

Benefit: The benefit is determined in accordance with the normal retirement formula based on credited service to the participant's actual date of retirement.

8. Early Retirement Benefit

Eligibility: A participant is eligible for an early retirement benefit upon satisfying all of the following conditions:

Age: 50
Credited Service: 10
Future Credited Service: 1

Benefit: The monthly retirement benefit is the amount determined in accordance with the normal retirement pension formula based on credited service to the date the participant terminates employment, reduced by 1/2 of 1% for each month that the actual benefit commencement date precedes the normal retirement date.

9. Vesting

Eligibility: A participant who terminates employment after completing five or more years of vesting service, including one year of future credited service, is eligible to receive a deferred vested pension commencing at his normal retirement date.

Benefit: The monthly deferred vested pension is the benefit determined in accordance with the normal retirement pension formula based on credited service to the date the participant terminates employment. Individuals who terminated prior to January 1, 1981

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

have their benefit calculated according to the former plan provisions.

In lieu of benefits commencing at normal retirement, a participant who has completed ten years of credited service (including one year of future credited service) upon reaching age 50 may elect to have a reduced pension commencing immediately. The reduction is calculated in the same manner as the early retirement reduction.

10. Total and Permanent Disability

Eligibility: Each participant who becomes totally and permanently disabled after completing ten or more years of credited service (including one or more years of future credited service) and who qualifies for and receives disability benefits under the federal Social Security law then in effect is eligible for total and permanent disability benefits under the Fund.

Benefit: The monthly total and permanent disability benefit is determined in accordance with the normal retirement pension formula based on credited service at the date of disability.

Disability benefits commence after meeting all of the eligibility requirements noted in the eligibility section above with no reduction if prior to the participant's normal retirement date.

11. Surviving Spouse Benefit

Eligibility: The spouse of an active participant, terminated vested participant, or retired participant who has not yet started to receive benefits, who dies after completing five or more years of credited service (including one or more years of future credited service), is eligible for a survivor's benefit provided the spouse has been legally married to the participant for at least one year prior to the death of the participant.

Benefit: The monthly benefit payable to the spouse is the greater of:

- a. 40% of the pension the participant would have received if the participant retired the day immediately preceding his death and elected an immediate payment of benefits, or
- b. 50% of the pension the participant would have received if the participant retired the day immediately preceding his death and elected the joint and one-half survivor's benefit option.

Payment commences at the time the participant would have been eligible to receive benefits in the amount specified in b. above if death occurs prior to eligibility for an immediate benefit.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

12. Post-Retirement Spouse Benefit

Eligibility: Unless an alternative optional form of benefit is elected, the spouse of a retired participant who is receiving a pension at his death is eligible for a survivor's benefit provided the spouse had been legally married to the retiree for at least one year prior to death.

Benefit: The survivor's benefit is equal to 20% of the monthly benefit being paid to the participant. The survivor's benefit is payable monthly to the surviving spouse for life.

13. Post-Retirement Lump Sum Death Benefit

Eligibility: The post-retirement lump sum death benefit is payable at the death of any retiree who was receiving a monthly pension from the Plan at the time of death.

Benefit: The lump sum post-retirement death benefit is \$2,500.

14. Forms of Pension Benefits

The normal form of pension is a monthly benefit for life, with 50% of the pension continued to the surviving spouse after the participant's death (provided the spouse was legally married to the participant for at least one year prior to death). The pension commences the first day of the next calendar month after conditions for retirement are satisfied and an application is filed.

Optional benefits, actuarially equivalent in value to the normal form of benefit, are available for election within 60 days of retirement.

- a. A reduced "joint and survivor" benefit: wherein, at the death of pensioner, the full amount of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 80% of the regular pension. Where the spouse is one year younger, the percentage is 79%, etc.)
- b. A reduced "joint and 2/3 survivor" benefit: wherein, at the death of pensioner, 2/3 of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 90% of the regular pension. Where the spouse is one year younger, the percentage drops to 89%, etc.)
- c. A reduced "joint and 1/2 survivor" benefit wherein, at the death of the pensioner, 1/2 of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 95% of the regular pension. Where the spouse is one year younger, the percentage drops to 94%, etc.)

15. Changes Since Last Valuation

None

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

B. All Other Participants

1. Eligibility

All employees within bargaining units represented by Local 400 and Local 27 where the collective bargaining agreement calls for contributions to this Fund on behalf of such employees as well as Local 400 staff.

2. Normal Retirement Date

At the employee's option, on the last day of the month in which his 65th birthday occurs, but not prior to his completing at least five years of credited service.

3. Credited Service

For each participant under either of the prior pension plans, credited service under this Fund at January 1, 1982 shall be equal to the credited service accrued under the prior Fund as of December 31, 1981; for each other person, credited service prior to January 1, 1982 (or date of joining the Fund, if later), shall be continuous service with his then employer to the nearest month. On and after January 1, 1982, one-fourth of a year of future service is granted to each full-time employee for each 400 hours worked in each calendar year up to 1,600 hours. For part-time employees, 200 hours per quarter and 800 hours per year are required.

4. Normal Retirement Benefit

The benefit is determined according to the contribution rate recognized for benefit accrual purposes. This may be less than the bargained contribution rate. The recognized contribution and benefit schedule is as follows:

Recognized Contribution Rate	Pension Benefit Per Month Per Year of Credited Service	
	Full-Time Benefit Rate	Part-Time Benefit Rate
\$.05	\$ 7.13	\$ 3.56
.08	11.25	5.62
.12	16.75	8.37
.15	20.13	10.06
.18	22.25	11.12
.21	24.00	12.00
.24	26.13	13.06
.27	28.13	14.06
.30	30.13	15.06
.33	32.13	16.06
.40	36.80	18.40

Note: Though substantially all participants are subject to the contribution and benefit rates above, there are exceptions. More detailed information on such exceptions can be found in the appendix to the plan document.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

5. Early Retirement

At the employee's option after he has both attained age 55 and completed at least 15 years of credited service. His accrued normal retirement pension is reduced by one-half of one percent for each month by which his retirement precedes his 60th birthday.

6. Disability Retirement

Disability retirement can occur upon the employee becoming totally and permanently disabled (according to Social Security criteria) after he has completed at least ten years of credited service. His accrued normal retirement pension will be payable without actuarial reduction as soon as the disability has been established to the satisfaction of the Trustees.

7. Deferred Vested Pension Benefit

If an employee ceases to work within a bargaining unit covered by the Fund after he has completed five years of Vesting Service, he will be entitled to his normal retirement pension accrued at the date he stopped work, payable starting on his Normal Retirement Date. Vesting service equals the sum of (a) credited service under each of the prior plans as of December 31, 1981, plus (b) his service after January 1, 1982, in which a year of vesting service is granted for each plan year in which he is credited with at least 750 regular time hours.

8. Pre-Retirement Spouse's Pension

Each employee who is vested under the Fund will be provided pre-retirement spouse's pension coverage whereby, if his death occurs before actual retirement, his spouse will receive a lifetime pension from the Fund. The spouse's pension will begin on the first of the month following the later of the employee's death or the earliest date he could have elected to retire under the Fund based upon his credited service at death. The amount of such pension will be one-half of that which would have been payable to the employee if he had retired on the date the spouse's pension is to begin and elected a joint and 50 percent survivor option.

9. Normal Form of Pension

The normal form of pension payable to a married employee will be an actuarially reduced pension on the joint and 50 percent survivor basis unless the employee elects otherwise with the written consent of the spouse. If the employee receives his pension on a single life basis, then a death benefit equal to the excess, if any, of a. over b. will be payable to the employee's designated beneficiary where a. and b. equal.

- a. 60 times the monthly pension amount
- b. the total amount of payments made prior to the employee's death.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX B - SUMMARY OF MAJOR PLAN PROVISIONS

10. Post-Retirement Death Benefit

Upon the death of an employee receiving pension benefits under the Plan, a single sum death benefit will be paid to his designated beneficiary. The amount of the death benefit will be \$2,500 if the majority of his credited service was as a full-time employee and \$1,500 if the majority of such service was as a part-time employee.

11. Changes to Plan Provisions Since Last Valuation

None

Note: The above summary is for the sole purpose of stating the principal plan provisions on which the valuation is based. Entitlement to benefits under the Fund is determined under the terms and provisions of the pension plan document.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX C - ACTUARIAL ASSUMPTIONS AND METHODS

A. Actuarial Assumptions

1. Rates of Investment Return

Funding and disclosure purposes:

7.75% compounded annually. This assumption is consistent with the investment consultant's outlook for the investment allocation policy.

Current Liability under RPA 1994:

3.28% compounded annually

Withdrawal liability purposes:

The Fund uses current PBGC interest rates (2.46% for 20 years and 2.98% thereafter) to determine the portion of the vested liabilities funded by the market value of Fund assets. The liabilities for the unfunded portion are based on the funding investment return of 7.75%.

2. Rates of Mortality

Funding and disclosure purposes:

Actives: RP-2000 Healthy Annuitant
 mortality table (2014 base year –
 fully generational).

Healthy Inactives: RP-2000 Healthy Annuitant
 mortality table (2014 base year –
 fully generational).

Disableds: RP-2000 Disabled Annuitant
 without projection for ages prior
 to 65.

Current Liability: 2016 Static Mortality as
 prescribed by IRS regulations.

An experience study was conducted to establish the current mortality and a projection to the current table has been incorporated to allow for future mortality improvement.

3. Other Demographic Assumptions

The demographic assumptions other than mortality are held over from prior valuations due to the changes in population that have occurred since the valuation. There have been no significant gains or losses from the Fund's liabilities which indicates that these assumptions are still appropriate.

a. Rates of Retirement

A. Former Meat and Poultry Participants

100% at the later of age 62 and five years of service.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND
ACTUARIAL VALUATION AS OF JANUARY 1, 2016**

APPENDIX C - ACTUARIAL ASSUMPTIONS AND METHODS

B. All Other Participants

Number Expected to Retire Annually Per 1,000			
Age	Number	Age	Number
55	50	62	100
56	50	63	100
57	50	64	100
58	50	65	500
59	50	66	500
60	100	67+	1,000
61	100		

Employees who terminate employment with entitlement to deferred vested pensions are assumed to commence receiving benefits when first eligible for unreduced benefits.

(ii) After five years of service:

Rate of Withdrawal Per 100 Employees		
Age	Male	Female
30	7.23	7.26
35	6.29	6.33
40	5.17	5.23

d. Pre-Retirement Spouse's Benefit

A. Former Meat and Poultry Participants

It was assumed that all active employees would be married at the time of death and, assuming service and age requirements were met, would therefore be eligible for the pre-retirement spouse's benefit. It was assumed that surviving

spouses would begin to receive the benefits when first eligible.

B. All Other Participants

It was assumed that 80 percent of the male employees and 60 percent of the female employees would be married at the time of death and, assuming service and age requirements were met, would therefore be eligible for the pre-retirement spouse's benefit. It was assumed that surviving spouses would begin to receive benefits when first eligible.

e. Percent Electing Joint and Survivor Form of Pension

A. Former Meat and Poultry Participants

100% of participants are assumed to elect the QJSA form of payment.

B. All Other Participants

It was assumed that 56 percent would retire with the joint and survivor option in effect with the balance of the retiring employees receiving their benefits under the single life form.

APPENDIX C - ACTUARIAL ASSUMPTIONS AND METHODS

f. Spouse's Age

A. Former Meat and Poultry Participants

100% of participants are assumed to be married. Males are assumed to be four years older than females.

B. All Other Participants

It was assumed that husbands are three years older than their spouses.

guidance. The mortality table for current liability was also updated to the 2016 Static Mortality tables for annuitants and non-annuitants.

The PBGC interest rates used to determine the funded portion of the vested liabilities was changed from 3.10% for 20 years and 3.29% thereafter to 2.46% for 20 years and 2.98% thereafter.

4. Administrative Expenses

\$1,400,000 as of the beginning of the year added to the normal cost.

5. Changes in Assumptions Since Last Valuation

The discount rate was reduced from 8.00% to 7.75%.

For both actives and healthy inactive, the mortality table has changed from the RP-2000 Healthy Annuitant mortality table set forward one year for males and no adjustment for females without projection to the RP-2000 Healthy Annuitant mortality table with base year 2014 and fully generational. No change was made to mortality table for disabled members.

The RPA '94 current liability interest rate was changed from 3.51% to 3.28% to comply with appropriate

APPENDIX C - ACTUARIAL ASSUMPTIONS AND METHODS

B. Actuarial Methods

1. Asset Valuation Method

The method used to value plan assets for funding purposes (i.e., for minimum funding purposes under IRS Code Section 412 and for deductibility under IRS Code Section 404) is that described under Approval #15 of Revenue Procedure 2000-40.

At 1/1/07, the actuarial value is set equal to market value. Going forward the actuarial value is taken to be the market value of assets less unrecognized returns (or plus unrecognized losses) in each of the last five years. An unrecognized return is equal to the difference between the actual return on the market value and the expected return on the market value and is recognized over a five-year period (20% in the year incurred, and an additional 20% in each subsequent year until fully recognized). The actuarial value is further adjusted so that in no event will it lie outside a range of 80%-120% of market value.

2. Funding Method: Unit Credit Cost Method

The cost method for valuation of liabilities used for this valuation is the Unit Credit method. This is one of a family of valuation methods known as accrued benefit methods. The chief characteristic of accrued benefit methods is that the funding pattern follows the pattern of benefit accrual. The normal cost is determined as that

portion of each participant's benefit attributable to service expected to be earned in the upcoming plan year. The actuarial liability, which is determined for each participant as of each valuation date, represents the actuarial present value of the portion of each participant's benefit attributable to service earned prior to the valuation date.

3. Funding Relief

The Fund's Board of Trustees elected funding relief under § 431(b)(8) of the Code and § 304(b)(8) of ERISA, specifically:

- The "special asset valuation rule" in determining the actuarial value of Fund assets which allows the Fund to recognize the 2008 loss over 10 years, at 10% per year starting with the 2009 actuarial value of assets, and
- The "special asset valuation rule" in determining the actuarial value of Fund assets which allows the Fund to use 130% of the market value of assets as the ceiling for the 2009 and 2010 actuarial value of assets.

4. Changes in Methods Since Last Valuation

None.
