UFCW Unions and Participating Employers Pension Fund  
c/o Mr. William Jensen  
Associated Administrators, LLC  
8400 Corporate Drive Suite 430  
Landover, Maryland 20785-2361

Dear Board of Trustees:

At your request, we have performed the January 1, 2019 Actuarial Valuation of the UFCW Unions and Participating Employers Pension Fund.

This report contains information on the Fund's assets and liabilities and discloses contribution levels, including the minimum required amount as mandated by Federal law.

Your attention is called to the Foreword section in which we refer to the general approach employed in the preparation of this report. We also comment on the sources and reliability of both the data and the actuarial assumptions on which our findings are based. Those comments are the basis for our certification that this report is complete and accurate to the best of our knowledge and belief. The results of this report are only applicable to the 2019 Plan Year and rely on future fund experience conforming to the underlying assumptions. To the extent that actual fund experience deviates from the underlying assumptions, the results would vary accordingly.

This report and its contents have been prepared in accordance with generally recognized and accepted actuarial principles and practices and our understanding of the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board as well as applicable laws and regulations. Furthermore, as credentialed actuaries, we meet the Qualification Standards of the American Academy of Actuaries to render the opinion contained in this report. This report does not address any contractual or legal issues. We are not attorneys, and our firm does not provide any legal services or advice.

This report was prepared exclusively for the UFCW Unions and Participating Employers Pension Fund for the purpose described herein and for the use by the plan auditor in completing an audit related to the matters herein. Other users of this report are not intended users as defined in the Actuarial Standards of Practice, and Cheiron assumes no duty or liability to any other user.

Sincerely,  
Cheiron

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**FOREWORD**

Cheiron has performed the actuarial valuation of the UFCW Unions and Participating Employers Pension Fund as of January 1, 2019. The purpose of this report is to:

- 1) Measure and disclose**, as of the valuation date, the current and projected financial status of the Fund, and
- 2) Provide specific information** and documentation required by the Federal Government and the auditors of the Fund.

An actuarial valuation establishes and analyzes fund assets, liabilities, and contributions on a consistent basis and traces the progress of both from one year to the next. It includes measurement of the fund's investment performance as well as an analysis of actuarial liability gains and losses.

**Section I** presents a summary of the valuation and compares this year's results to last year's results.

**Section II** contains our analysis of various risks.

**Section III** contains exhibits relating to the valuation of assets.

**Section IV** shows the various measures of liabilities.

**Section V** shows the development of the minimum and maximum contributions.

**Section VI** contains withdrawal liability information.

**Section VII** provides information required by the Fund's auditor.

The appendices to this report contain a summary of the Fund's membership at the valuation date, a summary of the major provisions of the Fund, and the actuarial methods and assumptions used in the valuation. Since the prior valuation, there have been no changes in the benefit provisions or assumptions.

In preparing our report, we relied on information (some oral and some written) supplied by Associated Administrators, LLC, PNC Bank, and WithumSmith+Brown, PC. This information includes, but is not limited to, the plan provisions, participant data, and financial information. We performed an informal examination of the obvious characteristics of the data for reasonableness and consistency in accordance with Actuarial Standard of Practice No. 23.

The actuarial assumptions, when analyzed individually, reflect our understanding of the likely future experience of the Fund. The results of this report are dependent upon future experience conforming to these assumptions. Future experience may differ significantly from the current assumptions presented in this report due to such factors as the following: plan experience differing from that anticipated by the assumptions; changes in assumptions; and changes in plan provisions or applicable law.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION I – SUMMARY**

The table below sets out the principal results of this year's valuation and compares them to last year's results.

| <b>Table I -1<br/>UFCW Unions and Participating Employers Pension Fund<br/>Summary of Principal Results</b> |                 |                 |               |

\* Contributions are estimated.

\*\* Minimum Required Contribution for the 2019 Plan Year includes an expense assumption of \$1,800,000.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION I – SUMMARY**

**General Comments**

- The market value of assets returned -2.26%, compared to the 2018 assumed return of 7.75%.
- For determining minimum required contributions, the Fund uses a smoothed actuarial value of assets. The rate of return on an actuarial value basis was 5.14%, resulting in an actuarial investment loss of \$2.96 million for minimum funding purposes.
- The Fund experienced a liability loss of \$1.77 million. \$660,000 of this is due to experience, or behavior of the population differing from what was expected. \$800,000 is due to missing vested participants who are assumed to remain in the system and receive a benefit. \$310,000 is due to vested inactives present in this year's census that were not in the prior year's census.
- When the liability loss is combined with the actuarial investment loss, the Fund experienced a total net actuarial loss of \$4.73 million. For determining the minimum required contribution, this net loss will be amortized over 15 years resulting in installment payments of \$506 thousand for 15 years.
- The ERISA minimum required contribution increased by 9.1% since last year to \$15,873,439.
- The Fund's funding ratio (actuarial value of assets as a percentage of accrued liability) decreased from 58.9% as of January 1, 2018 to 56.8% as of January 1, 2019. Based on the market value of assets, the funding ratio decreased from 59.9% to 53.7%.
- The unfunded vested benefits used in calculating withdrawal liability (vested benefits on a funding basis and market value of assets) increased from \$140.6 million in the previous year to \$147.2 million, an increase of 4.6%.
- The Fund's actuarial certification under the Pension Protection Act was filed on March 29, 2019. The Fund was certified to remain in Critical status.

# **UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND** **ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

## **SECTION I – SUMMARY**

### **Historical Review**

The graph below shows the assets and liabilities of the Fund over the last ten years. The gold bars show the value of accrued liability used for testing the Fund's PPA status. The green line shows the actuarial value of assets (AVA) and the blue line shows the market value of assets (MVA).

The Fund's funding ratio (actuarial assets as a percent of accrued liabilities shown along the top) has decreased over the period to its current level of 57%. The increase in accrued liability between 2015 and 2016 is due to the change in discount rate assumption, from 8.00% to 7.75%.

The graph that follows shows the participants of the Fund at successive valuations. The numbers above the bars on the graph indicate the ratio of inactive participants to active full-time and part-time participants (FT and PT). The higher the ratio, the greater the burden that additional costs have on actives to meet the cost of benefits.

The increase in this value over the last decade means there is an increasing population of non-active participants relative to the active participants covered by the Fund. The increase from 1.2 in 2015 to 2.1 in 2016 is due to Kroger withdrawing from the Fund at the end of 2015.

The overall reduction in the number of terminated vesteds from 2016 to 2017 is due to the transfer of Kroger liabilities to the Consolidated Fund. The reduction in actives from 2016 to 2017 is due to the withdrawal of Boars Head.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION I – SUMMARY**

The next graph shows the Fund's net cash flow (black line) as contributions (yellow bars) less benefit payments and expenses (red bars). This is a critical measure. Negative net cash flow means the Fund will need to use investments to meet benefit payments. Positive cash flow enables the Fund to absorb the impact of market fluctuations which helps support a long-term investment strategy.

The Fund's net cash flow has been negative for the majority of the period shown. For 2016, the Employer Contribution included lump sum withdrawal liability payments of \$7.4 million. The negative cash flow is approximately 5.4% of the market value of assets.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION II – RISK ANALYSIS**

The fundamental risk to the Fund is that its assets and contributions prove to be inadequate to pay promised benefits as they become due. The principal purpose of an actuarial valuation is to check whether the Fund is likely to meet these promises and to provide information to the Trustees so that imbalances can be corrected, if at all possible. Actuarial valuations are based on a set of assumptions about future economic and demographic experience. These assumptions represent a reasonable estimate of future experience, but actual future experience will undoubtedly be different and may be significantly different. This section of the report is intended to identify the primary risks to the Fund, provide some background information about those risks, and provide an assessment of those risks.

### Identification of Risks

There are a number of risks that the Fund faces including, but not limited to, investment risk, contribution risk, longevity risk, and the risk of other assumptions not accurately predicting the future. While there are a number of factors that could lead to contribution amounts being inadequate, the primary risks are:

- Investment risk, and
- Contribution risk.

Other risks that are not explicitly identified may also turn out to be important.

**Investment Risk** is the potential for investment returns to be different than expected. Lower investment returns than

anticipated will decrease the expected future funding ratio and increase the contribution requirement. The potential volatility of future investment returns is influenced by the Fund's asset allocation and the impact of the investment risk is correlated to the amount of assets invested relative to the size of the contribution base.

The chart below shows the actual returns over the last 10 years on the Market Value of Assets and the smoothed Actuarial Value of Assets. Observe that there are years in which the actual return exceeded the assumed return and others where it was significantly less the assumed return. The Market Value of Assets averaged 8.36% over this 10-year period, but 5.18% over the last 5 years. These are in comparison to the current assumption of 7.75% per year.

The following table shows the impact of the investment return for 2019 on the funding ratio as of January 1, 2020. The funding ratio here uses the actuarial value of assets, so any

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION II – RISK ANALYSIS**

difference between the actual return for 2019 and the assumed 7.75% is smoothed over five years. For reference the funding ratio as of January 1, 2019 is 56.9%.

| 2019 Market Return | January 1, 2020 Expected Funding Ratio |
|--------------------|----------------------------------------|
| 0.00%              | 54.1%                                  |
| 5.00%              | 54.6%                                  |
| 7.75%              | 54.9%                                  |
| 10.00%             | 55.1%                                  |
| 15.00%             | 55.6%                                  |

The funding ratio as of January 1, 2020 is highly dependent on the 2019 return even though the valuation smooths any gains or losses. If the Fund were to experience continued periods of lower or higher returns than the assumed 7.75%, the projected funding ratios will vary significantly.

**Contribution Risk** is the potential for actual future contributions to deviate from expected future contributions. There are different sources of contribution risk ranging from the hours declining, causing a drop in contributions, to withdrawal liability assessments or other anticipated payments not being made. Since contributions are the source of funding the plan, any change to them will impact the future funded ratio. If future contributions are less than anticipated, the funding could be insufficient to maintain solvency in the long term.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION III – ASSETS**

**Assets at Market Value**

Market values are “snap-shot” or “cash-out” values which provide the principal basis for measuring financial performance from one year to the next.

| Table III - 1<br>Statement of Assets at Market Value, December 31, |                |                |
|--------------------------------------------------------------------|----------------|----------------|
|                                                                    | 2017           | 2018           |
| <b>Invested Assets</b>                                             |                |                |

**Changes in Market Value**

The components of asset change are:

- Contributions
- Benefit payments
- Expenses
- Investment income (realized and unrealized)

The specific changes during 2018 are presented below.

| Table III - 2<br>Changes in Market Values |                |
|-------------------------------------------|----------------|
| Value of Assets - January 1, 2018         | \$ 120,413,338 |
| Employer Contributions                    | \$ 7,658,388   |
| Investment Return (Gross)                 | (2,797,868)    |
| Benefit Payments                          | (12,027,245)   |

| Other                                     | 743,581        |
| Investment Expenses                       | (603,609)      |
| Value of Assets January 1, 2019           | \$ 111,684,793 |

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION III – ASSETS**

**Assets at Actuarial Value**

The actuarial value of assets is calculated under a smoothed market value method that phases in asset gains and losses over five years. Details on the method used for determining the actuarial value of assets are provided in Appendix C.

| <b>Table III - 3<br/>Actuarial Value of Assets</b>    |                                |                       |                     |                    |
|-------------------------------------------------------|--------------------------------|-----------------------|---------------------|--------------------|
| Market Value of Assets at January 1, 2019             |                                |                       |                     | \$ 111,684,793     |

**Impact of Investment Performance**

The following table calculates the investment related actuarial gain/(loss) and the return for the prior plan year on both a market value and actuarial value basis. The market value return is an appropriate measure for comparing the actual asset performance to the long-term assumption. The actuarial gain/(loss) on the actuarial value basis is one component of the Fund's experience gain/(loss) recognized in minimum funding and incorporates a significant level of smoothing.

| <b>Table III - 4</b>                 |                |                 |
|--------------------------------------|----------------|-----------------|
| Item                                 | Market Value   | Actuarial Value |

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION IV – LIABILITIES**

In this section, we present detailed information on fund liabilities including:

- **Disclosure** of fund liabilities at January 1, 2018 and January 1, 2019; and
- Statement of **changes** in these liabilities during the year.

**Disclosure**

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the purpose for which they are being used.

- **Actuarial Liabilities:** Used for ensuring minimum funding standards are met, this liability is determined using an actuarial funding method to apportion the Present Value of Future Benefits between the past and the future. For this Fund, that method is Unit Credit. The actuarial liability under the Unit Credit Cost Method is the total amount of money needed to fully pay off all future obligations of the Fund, assuming no further accrual of benefits.
- **Accrued Liabilities/Present Value of Accrued Benefits:** These liabilities are used for determining funded status under PPA. The law requires them to be compared to the actuarial value of assets to measure funded status. They can also be used to establish comparative benchmarks with other plans.

The accrued liabilities are also included in the Fund's financial statements for accounting disclosure purposes (FASB ASC Topic No. 960). However, the accounting disclosure must also include the present value of future administrative expenses. This sum is called the Present Value of Accumulated Benefits.

These benefit liabilities are also determined using the Unit Credit Cost Method and therefore, the accrued liabilities equal the actuarial liabilities.

- **Vested Liabilities:** Used for administrative purposes in determining employer withdrawal liability. This liability is that portion of the accrued liabilities which are vested. These are developed using withdrawal liability assumptions which are different than the funding assumptions.
- **Current Liabilities:** The calculation of this liability is defined by the Internal Revenue Code. It is used to determine the maximum allowable tax deductible contributions.

The table on the following page discloses each of these liabilities for the current valuation and the prior one. With respect to each disclosure, a subtraction of the appropriate value of fund assets yields, for each respective type, a net surplus or an unfunded liability.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION IV – LIABILITIES**

**Changes in Liabilities**

Each of the liabilities shown in the prior table is subject to change at successive valuations as the experience of the Fund varies from that assumed in the valuation. The liabilities may change for any of several reasons including:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments
- Interest on liabilities
- Benefits paid to retirees
- Participants leaving employment at rates different than expected
- Changes in actuarial assumptions
- Changes in actuarial methods
- Corrections to participant data records.

**Table IV - 3**

|                               | <b>Actuarial / Accrued<br/>Liability</b> |
|-------------------------------|------------------------------------------|
| Liabilities 1/1/2018          | \$ 202,075,314                           |
| Liabilities 1/1/2019          | 209,040,356                              |
| Liability Increase (Decrease) | 6,965,042                                |
| Change due to:                |                                          |
| Plan Amendment                | \$ 0                                     |
| Assumption Change             | 0                                        |
| Accrual of Benefits           | 1,871,637                                |
| Benefit Payments              | (12,027,245)                             |
| Passage of Time               | 15,348,529                               |
| Actuarial (Gain)/Loss         | <u>1,772,121</u>                         |

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION V – CONTRIBUTIONS**

In this section, we present detailed information on the Fund's contributions from two perspectives:

- **Actuarially determined contributions** and
- **Government Limitations**, which could affect the above.

**Actuarially Determined Contribution**

For this Fund, the actuarial cost method used for developing the actuarially determined contribution is the Unit Credit Cost Method. This amount, which can also be considered as the actuarial cost, is determined in two parts.

The first part is the Unit Credit Normal Cost. This is the cost to the Fund of providing the benefit expected to be earned in the current year for each active participant. It also includes an estimated administrative expense assumption.

The second part is an amortization payment to pay off the unfunded actuarial liability. The unfunded actuarial liability is the difference between the actuarial assets of the Fund at the valuation date and the assets the Fund should hold as determined by the actuarial cost method. The amortization amount is determined by the amortization schedule established by the IRS minimum funding rules. Consequently, the actuarially determined contribution and cost are the same as the minimum required contribution.

**Government Limitations**

ERISA and the IRS tax code place various limits on the contributions made to qualified pension plans. The limits impact the minimum that must be paid, the maximum that can be deducted and the timing of contributions.

To ensure that minimum contribution requirements are met, pension plans are required to retain an Enrolled Actuary to complete Schedule MB to Form 5500 on an annual basis. Because the bargained contributions have exceeded the minimum required contribution in years past, the Fund has built up a credit balance. The credit balance can be used in future years to make up any difference between the minimum required contribution and employer contributions.

The actuarially determined contribution for 2019, which can also be considered the actuarial cost for 2019, is shown on the next page. This is compared to the various Government Limitations and estimated employer contributions. The table also shows the per capita actuarial cost and employer contribution.

Note that the per capita cost is based on the current year's amortization payment. This cost will fluctuate from year to year as amortization charges and credits are added and fully paid off.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**SECTION VI – WITHDRAWAL LIABILITY**

The Multi-Employer Pension Plan Amendments Act of 1980 (MPPAA) provides that a contributing employer who withdraws from a multi-employer pension plan, either partially or totally, will be liable to the Fund for a proportionate share of the Fund's total Unfunded Vested Benefits (UVB) that exist as of the end of the plan year prior to the year in which the withdrawal occurs.

The present value of vested benefits for this purpose is a blend of the liability determined using the rate in effect as of December 31, 2018 used by the Pension Benefit Guaranty Corporation (2.84% for 20 years and 2.76% thereafter) and the liability determined using the Fund's funding investment return of 7.75%. The blended liability used is based upon the percentage of PBGC liability amounts covered by the market value of assets. Calculation of the Fund's total UVB is shown below.

| Table VI-1<br>Calculation of the Unfunded Present Value of Vested Benefit for Withdrawal Liability Purposes<br>for Plan Year Starting January 1, 2019 |    |             |                |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------|----------------|

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX A – MEMBERSHIP INFORMATION**

The data for this valuation was provided electronically by Associated Administrators, LLC (AA). Cheiron did not audit any of the data. The data is as of January 1, 2019. Below is a list of assumptions Cheiron made in using the data this year. We continue to work closely with AA to work out all of the intricate data details and expect to require fewer assumptions in future years.

**Date of Birth for Active Employees**

For active participants with bad or missing dates of birth, we have imputed a date of birth based on the assumption that they entered the Fund at the average hire age of the participants in their group. These average hire ages are as follows:

| Full-Time/<br>Part-Time | Sex    | Average<br>Hire Age |
|-------------------------|--------|---------------------|
| Full-Time               | Male   | 32                  |
| Full-Time               | Female | 34                  |
| Part-Time               | Male   | 32                  |
| Part-Time               | Female | 34                  |

**Full-Time/Part-Time Status**

Full-time versus part-time status is not included in the data provided to Cheiron. Participants are assigned full-time versus part-time status based on whether the majority of their service worked since date of hire was full-time or part-time as reported in the valuation data supplied by Associated Administrators.

The following is a list of data graphs contained in this section:

- Status Reconciliation
- Age/Service Distribution for Full-Time Active Participants
- Age/Service Distribution for Part-Time Active Participants
- Counts and Average Benefit Amount by Age for Retirees, Beneficiaries, and Disabled Participants
- Counts and Average Benefit Amount by Age for Terminated Vested Participants

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**A. Former Meat and Poultry Participants**

**1. Eligibility**

All employees formerly covered by a collective bargaining agreement requiring contributions by employers (including the Local Union) to the Amalgamated Meat Cutters and Allied Workers of North America Local Union No. 593 and Washington Wholesalers Pension Fund participate in the plan. As of January 1, 2007, the Fund was merged with the UFCW Unions and Participating Employers Pension Fund.

**2. Credited Service**

Credited service consists of the total past and future service as defined below.

*a. Past Service*

Past credited service is based on completed years and months of continuous employment with a participating employer prior to the employer's participation date (January 1, 1966 for employers participating under the Amalgamated Meat Cutters agreement and April 1, 1975 for employers participating under the Poultry Workers agreement).

*b. Future Service*

Future credited service is expressed in terms of years (and fractional years) of employment on or after January 1, 1966 during which an employer is required to make contributions to the Fund. The following schedule is applicable for determining future credited service:

| <u>Hours</u>   |               | Future<br>Service Credit |
|----------------|---------------|--------------------------|
| At Least       | But Less Than |                          |
| 400            | 600           | 0.3                      |
| 600            | 800           | 0.4                      |
| 800            | 1,000         | 0.5                      |
| 1,000          | 1,200         | 0.6                      |
| 1,200          | 1,400         | 0.7                      |
| 1,400          | 1,600         | 0.8                      |
| 1,600          | 1,800         | 0.9                      |
| 1,800 and over |               | 1.0                      |

Contributions are made and credit given for the Meat Cutters for 173 hours in any month a participant works 134 or more hours. No employee will be credited with more than one year of future credited service in one calendar year.

Credited service for calculating benefit amounts may not exceed 40 years.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**3. Vesting Service**

Vesting service for Meat Cutters is the total of past and future credited service.

Vesting service for Poultry Workers is future credited service.

In all cases, one year of vesting service is granted for each year of future credited service in which the participant works at least 1,000 hours.

**4. Loss of Credited Service**

A participant who has fewer than five years of vesting credit will lose all of his previously accumulated credited service if, before qualifying for and making an application for benefits, he suffers at least three consecutive breaks in service (works less than 500 hours). An exception is made for service in the armed forces in time of war, national emergency or pursuant to a national conscription, provided he returns to active service as an employee within 90 days after release or within such longer period as is prescribed by law. A participant who has lost all of his credited service is considered a new participant at such time as subsequent contributions are made to the pension trust on his behalf.

**5. Reinstatement of Service Credits**

A former participant who ceases to participate after January 1, 1976 and again becomes a participant may reinstate his prior service and benefit accruals. Reinstatement of prior benefit accruals will be as of the last day of the 12-month period following completion of 1,000 hours with the employer in:

- a. the 12-month period commencing with the date of his return, or
- b. the 12-month period in the plan year following the date of his return, or
- c. any subsequent plan year, provided that (i) the number of consecutive years between the last break in service and the beginning of the plan year in which he fulfills the 1,000-hour requirement was less than his prior vesting service, or (ii) the participant accumulates at least five years of future service following resumption of participation.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**6. Normal Retirement Benefit**

Eligibility: A participant is eligible for a normal retirement benefit upon satisfying all of the following conditions:

**Age:** 60  
**Credited Service:** 5  
**Future Credited Service:** 1

Benefit: The monthly benefit at normal retirement is a dollar amount multiplied by credited service. The dollar amount varies by employer as follows:

| Monthly Benefit |                     |
|-----------------|---------------------|
| Employer        | Per year of Service |
| Boar's Head     | \$ 6.25             |
| All Others      | \$ 38.00            |

**7. Late Retirement**

Eligibility: A participant who remains in employment beyond his normal retirement date is eligible to receive a late retirement benefit commencing on the first day of the month following or coinciding with his actual retirement date.

Benefit: The benefit is determined in accordance with the normal retirement formula based on credited service to the participant's actual date of retirement.

**8. Early Retirement Benefit**

Eligibility: A participant is eligible for an early retirement benefit upon satisfying all of the following conditions:

**Age:** 50  
**Credited Service:** 10  
**Future Credited Service:** 1

Benefit: The monthly retirement benefit is the amount determined in accordance with the normal retirement pension formula based on credited service to the date the participant terminates employment, reduced by 1/2 of 1% for each month that the actual benefit commencement date precedes the normal retirement date.

**9. Vesting**

Eligibility: A participant who terminates employment after completing five or more years of vesting service, including one year of future credited service, is eligible to receive a deferred vested pension commencing at his normal retirement date.

Benefit: The monthly deferred vested pension is the benefit determined in accordance with the normal retirement pension formula based on credited service to the date the participant terminates employment. Individuals who terminated prior to January 1, 1981

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

have their benefit calculated according to the former plan provisions.

In lieu of benefits commencing at normal retirement, a participant who has completed ten years of credited service (including one year of future credited service) upon reaching age 50 may elect to have a reduced pension commencing immediately. The reduction is calculated in the same manner as the early retirement reduction.

**10. Total and Permanent Disability**

Eligibility: Each participant who becomes totally and permanently disabled after completing ten or more years of credited service (including one or more years of future credited service) and who qualifies for and receives disability benefits under the federal Social Security law then in effect is eligible for total and permanent disability benefits under the Fund.

Benefit: The monthly total and permanent disability benefit is determined in accordance with the normal retirement pension formula based on credited service at the date of disability.

Disability benefits commence after meeting all of the eligibility requirements noted in the eligibility section above with no reduction if prior to the participant's normal retirement date.

**11. Surviving Spouse Benefit**

Eligibility: The spouse of an active participant, terminated vested participant, or retired participant who has not yet started to receive benefits, who dies after completing five or more years of credited service (including one or more years of future credited service), is eligible for a survivor's benefit provided the spouse has been legally married to the participant for at least one year prior to the death of the participant.

Benefit: The monthly benefit payable to the spouse is the greater of:

- a. 40% of the pension the participant would have received if the participant retired the day immediately preceding his death and elected an immediate payment of benefits, or
- b. 50% of the pension the participant would have received if the participant retired the day immediately preceding his death and elected the joint and one-half survivor's benefit option.

Payment commences at the time the participant would have been eligible to receive benefits in the amount specified in b. above if death occurs prior to eligibility for an immediate benefit.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**12. Post-Retirement Spouse Benefit**

Eligibility: Unless an alternative optional form of benefit is elected, the spouse of a retired participant who is receiving a pension at his death is eligible for a survivor's benefit provided the spouse had been legally married to the retiree for at least one year prior to death.

Benefit: The survivor's benefit is equal to 20% of the monthly benefit being paid to the participant. The survivor's benefit is payable monthly to the surviving spouse for life.

**13. Post-Retirement Lump Sum Death Benefit**

Eligibility: The post-retirement lump sum death benefit is payable at the death of any retiree who was receiving a monthly pension from the Plan at the time of death.

Benefit: The lump sum post-retirement death benefit is \$2,500.

**14. Forms of Pension Benefits**

The normal form of pension is a monthly benefit for life, with 50% of the pension continued to the surviving spouse after the participant's death (provided the spouse was legally married to the participant for at least one year prior to death). The pension commences the first day of the next calendar month after conditions for retirement are satisfied and an application is filed.

Optional benefits, actuarially equivalent in value to the normal form of benefit, are available for election within 60 days of retirement.

- a. A reduced "joint and survivor" benefit: wherein, at the death of pensioner, the full amount of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 80% of the regular pension. Where the spouse is one year younger, the percentage is 79%, etc.)
- b. A reduced "joint and 2/3 survivor" benefit: wherein, at the death of pensioner, 2/3 of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 90% of the regular pension. Where the spouse is one year younger, the percentage drops to 89%, etc.)
- c. A reduced "joint and 1/2 survivor" benefit wherein, at the death of the pensioner, 1/2 of the reduced pension continues for the lifetime of the spouse. (For a participant and spouse of equal age, this option provides a reduced pension equal to 95% of the regular pension. Where the spouse is one year younger, the percentage drops to 94%, etc.)

**15. Changes Since Last Valuation**

None

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**B. Former Consolidated Participants**

**1. Eligibility**

Employees hired prior to June 30, 2016 who satisfied the eligibility requirements of the Consolidated Fund prior to June 30, 2016.

**2. Credited Service**

Credited service is determined under the provisions of the plan prior to the transfer.

**3. Normal Retirement Benefit**

The benefit accrued prior to June 30, 2016 was accrued in accordance with the plan provisions of the plan prior to transfer.

Benefits accrue after June 30, 2016 at the rate of \$46.45 per month per year of service.

**4. Early Retirement Benefit**

Employees may receive benefits on retirement before the Normal Retirement Date under the provision of the prior plan.

**5. Vesting**

All participants were fully vested at the time of transfer.

**6. Total and Permanent Disability**

Disability retirement can occur upon the employee becoming totally and permanently disabled (according to Social Security criteria) after he has completed at least ten years of credited service. The accrued normal retirement pension will be payable without actuarial reduction as soon as the disability has been established to the satisfaction of the Trustees.

**7. Pre-Retirement Spouse's Pension**

Each employee who is vested under the Fund will be provided pre-retirement spouse's pension coverage whereby, if his death occurs before actual retirement, his spouse will receive a lifetime pension from the Fund. The spouse's pension will begin on the first of the month following the later of the employee's death or the earliest date he could have elected to retire under the Fund based upon his credited service at death. The amount of such pension will be one-half of that which would have been payable to the employee if he had retired on the date the spouse's pension is to begin and elected a joint and 50 percent survivor option.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**8. Forms of Pension Benefits**

The normal form payable to an unmarried participant is a single life annuity. The normal form of pension payable to a married employee will be an actuarially reduced pension on the joint and 50 percent survivor basis unless the employee elects otherwise with the written consent of the spouse. In addition, married participants can elect an actuarially reduced Joint and Survivor pension with a 75% or 100% continuation.

**9. Changes Since Last Valuation**

None.

**3. Credited Service**

For each participant under either of the prior pension plans, credited service under this Fund at January 1, 1982 shall be equal to the credited service accrued under the prior Fund as of December 31, 1981; for each other person, credited service prior to January 1, 1982 (or date of joining the Fund, if later), shall be continuous service with his then employer to the nearest month. On and after January 1, 1982, one-fourth of a year of future service is granted to each full-time employee for each 400 hours worked in each calendar year up to 1,600 hours. For part-time employees, 200 hours per quarter and 800 hours per year are required.

**C. All Other Participants**

**1. Eligibility**

All employees within bargaining units represented by Local 400 and Local 27 where the collective bargaining agreement calls for contributions to this Fund on behalf of such employees as well as Local 400 staff.

**2. Normal Retirement Date**

At the employee's option, on the last day of the month in which his 65<sup>th</sup> birthday occurs, but not prior to his completing at least five years of credited service.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**4. Normal Retirement Benefit**

The benefit is determined according to the contribution rate recognized for benefit accrual purposes. This may be less than the bargained contribution rate. The recognized contribution and benefit schedule is as follows:

| Recognized<br>Contribution<br>Rate | Pension Benefit Per Month<br>Per Year of Credited Service |                           |
|------------------------------------|-----------------------------------------------------------|---------------------------|
|                                    | Full-Time<br>Benefit Rate                                 | Part-Time<br>Benefit Rate |
| \$.05                              | \$ 7.13                                                   | \$ 3.56                   |
| .08                                | 11.25                                                     | 5.62                      |
| .12                                | 16.75                                                     | 8.37                      |
| .15                                | 20.13                                                     | 10.06                     |
| .18                                | 22.25                                                     | 11.12                     |
| .21                                | 24.00                                                     | 12.00                     |
| .24                                | 26.13                                                     | 13.06                     |
| .27                                | 28.13                                                     | 14.06                     |
| .30                                | 30.13                                                     | 15.06                     |
| .33                                | 32.13                                                     | 16.06                     |
| .40                                | 36.80                                                     | 18.40                     |

**Note:** Though substantially all participants are subject to the contribution and benefit rates above, there are exceptions. More detailed information on such exceptions can be found in the appendix to the plan document.

**5. Early Retirement**

At the employee's option after he has both attained age 55 and completed at least 15 years of credited service. His accrued normal retirement pension is reduced by one-half of one percent for each month by which his retirement precedes his 60<sup>th</sup> birthday.

**6. Disability Retirement**

Disability retirement can occur upon the employee becoming totally and permanently disabled (according to Social Security criteria) after he has completed at least ten years of credited service. His accrued normal retirement pension will be payable without actuarial reduction as soon as the disability has been established to the satisfaction of the Trustees.

**7. Deferred Vested Pension Benefit**

If an employee ceases to work within a bargaining unit covered by the Fund after he has completed five years of Vesting Service, he will be entitled to his normal retirement pension accrued at the date he stopped work, payable starting on his Normal Retirement Date. Vesting service equals the sum of (a) credited service under each of the prior plans as of December 31, 1981, plus (b) his service after January 1, 1982, in which a year of vesting service is granted for each plan year in which he is credited with at least 750 regular time hours.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX B – SUMMARY OF MAJOR PLAN PROVISIONS**

**8. Pre-Retirement Spouse's Pension**

Each employee who is vested under the Fund will be provided pre-retirement spouse's pension coverage whereby, if his death occurs before actual retirement, his spouse will receive a lifetime pension from the Fund. The spouse's pension will begin on the first of the month following the later of the employee's death or the earliest date he could have elected to retire under the Fund based upon his credited service at death. The amount of such pension will be one-half of that which would have been payable to the employee if he had retired on the date the spouse's pension is to begin and elected a joint and 50 percent survivor option.

**9. Normal Form of Pension**

The normal form of pension payable to a married employee will be an actuarially reduced pension on the joint and 50 percent survivor basis unless the employee elects otherwise with the written consent of the spouse. If the employee receives his pension on a single life basis, then a death benefit equal to the excess, if any, of a. over b. will be payable to the employee's designated beneficiary where a. and b. equal.

- a. 60 times the monthly pension amount
- b. the total amount of payments made prior to the employee's death.

**10. Post-Retirement Death Benefit**

Upon the death of an employee receiving pension benefits under the Plan, a single sum death benefit will be paid to his designated beneficiary. The amount of the death benefit will be \$2,500 if the majority of his credited service was as a full-time employee and \$1,500 if the majority of such service was as a part-time employee.

**11. Changes to Plan Provisions Since Last Valuation**

None.

**Note:** The above summary is for the sole purpose of stating the principal plan provisions on which the valuation is based. Entitlement to benefits under the Fund is determined under the terms and provisions of the pension plan document.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX C – ACTUARIAL ASSUMPTIONS AND METHODS**

**A. Actuarial Assumptions**

**1. Rates of Investment Return and Discounting**

Funding and disclosure purposes:  
7.75% compounded annually. This assumption is consistent with the investment consultant's outlook for the investment allocation policy.

Current Liability under RPA 1994:  
3.06% compounded annually

Withdrawal liability purposes:  
The Fund uses current PBGC interest rates (2.84% for 20 years and 2.76% thereafter) to determine the portion of the vested liabilities funded by the market value of Fund assets. The liabilities for the unfunded portion are based on the funding investment return of 7.75%.

**2. Rates of Mortality**

Funding and disclosure purposes:

Actives:                      RP-2000    Healthy    Annuitant  
                                         mortality table (2014 base year –  
                                         fully generational).

Healthy Inactives:        RP-2000    Healthy    Annuitant  
                                         mortality table (2014 base year –  
                                         fully generational).

Disableds:                      RP-2000    Disabled    Annuitant  
                                         without projection for ages prior  
                                         to 65.

Current Liability:            2019        Static        Mortality    as  
                                         prescribed by IRS regulations.

An experience study was conducted to establish the current mortality and a projection to the current table has been incorporated to allow for future mortality improvement.

**3. Other Demographic Assumptions**

The demographic assumptions other than mortality are held over from prior valuations due to the changes in population that have occurred since the valuation. There have been no significant gains or losses from the Fund's liabilities which indicates that these assumptions are still appropriate.

**a. Rates of Retirement**

*A. Former Meat and Poultry Participants*

100% at the later of age 62 and five years of service.

| 59                                           | 50     | 66  | 500    |
| 60                                           | 100    | 67+ | 1,000  |
| 61                                           | 100    |     |        |

Employees who terminate employment with entitlement to deferred vested pensions are assumed to commence receiving benefits when first eligible for unreduced benefits.

**b. Rates of Turnover**

Termination of employment for reasons other than death, disability, or retirement is assumed to be in accordance with annual rates as shown.

| Number Expected to Terminate Annually Per 1,000 |        |         |        |
|-------------------------------------------------|--------|---------|--------|
| Service                                         | Number | Service | Number |
| 0                                               | 500    | 15      | 70     |
| 1                                               | 330    | 16      | 70     |
| 2                                               | 250    | 17      | 70     |
| 3                                               | 200    | 18      | 70     |
| 4                                               | 150    | 19      | 70     |
| 5                                               | 125    | 20      | 70     |
| 6                                               | 120    | 21      | 70     |
| 7                                               | 110    | 22      | 70     |
| 8                                               | 100    | 23      | 70     |
| 9                                               | 80     | 24      | 60     |
| 10                                              | 80     | 25      | 50     |
| 11                                              | 80     | 26      | 40     |
| 12                                              | 70     | 27      | 30     |
| 13                                              | 70     | 28      | 20     |
| 14                                              | 70     | 29      | 10     |

**c. Disability**

Disability incidence rates are assumed to be equal to 150 percent of the Group Long-Term Disability Insurance Crude Rates of Disablement (Male Experience Only) published in Transactions, Society of Actuaries, 1979 Reports. Rates were

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX C – ACTUARIAL ASSUMPTIONS AND METHODS**

capped at 1% (10 participants per 1,000). The following table shows the Illustrative rates of disablement.

| Age | Disablements Per<br>1,000 Participants |
|-----|----------------------------------------|
| 25  | 0.4                                    |
| 30  | 0.6                                    |
| 35  | 1.0                                    |
| 40  | 1.6                                    |
| 45  | 2.6                                    |
| 50  | 4.5                                    |
| 55  | 8.5                                    |

**d. Pre-Retirement Spouse's Benefit**

*A. Former Meat and Poultry Participants*

It was assumed that all active employees would be married at the time of death and, assuming service and age requirements were met, would therefore be eligible for the pre-retirement spouse's benefit. It was assumed that surviving spouses would begin to receive the benefits when first eligible.

*B. Former Consolidated Participants*

85% of male participants and 65% of female participants are assumed to be married. Husbands are assumed to be 3 years older than their wives. It was assumed that surviving

spouses would begin to receive the benefits when first eligible.

*C. All Other Participants*

It was assumed that 80 percent of the male employees and 60 percent of the female employees would be married at the time of death and, assuming service and age requirements were met, would therefore be eligible for the pre-retirement spouse's benefit. It was assumed that surviving spouses would begin to receive benefits when first eligible.

**e. Percent Electing Joint and Survivor Form of Pension**

*A. Former Meat and Poultry Participants*

100% of participants are assumed to elect the QJSA form of payment.

*B. Former Consolidated Participants*

Married participants are assumed to elect the 50% Joint and Survivor form of payment. Single participants are assumed to elect Single Life Annuity. 85% of male participants and 65% of female participants are assumed to be married.

**UFCW UNIONS AND PARTICIPATING EMPLOYERS PENSION FUND  
ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX C – ACTUARIAL ASSUMPTIONS AND METHODS**

*C. All Other Participants*

It was assumed that 56 percent would retire with the joint and survivor option in effect with the balance of the retiring employees receiving their benefits under the single life form.

**f. Spouse's Age**

*A. Former Meat and Poultry Participants*

100% of participants are assumed to be married. Males are assumed to be four years older than females.

*B. Former Consolidated Participants*

85% of male participants and 65% of female participants are assumed to be married. Husbands are assumed to be 3 years older than their wives.

*C. All Other Participants*

It was assumed that husbands are three years older than their spouses.

**4. Administrative Expenses**

\$1,800,000 (\$140.79 per participant) as of the beginning of the year added to the normal cost. For financial disclosure under FASB Topic ASC 960 the

present value of future administrative expense is based on future beginning of the year cash flows of \$140.79 per participant that increase 3% per year for inflation.

**5. Changes in Assumptions Since Last Valuation**

The RPA '94 current liability interest rate was changed from 2.98% to 3.06% to comply with appropriate guidance. The mortality table for current liability was also updated to the 2019 Static Mortality tables for annuitants and non-annuitants.

The PBGC interest rates used to determine the funded portion of the vested liabilities was changed from 2.34% for 20 years and 2.63% thereafter to 2.84% for 20 years and 2.76% thereafter.

The per participant cash flows used to estimate the present value of future administrative expense for financial disclosure under FASB Topic ASC 960 changed to \$140.79 per participant. Last year \$141.30 was used.

ACTUARIAL VALUATION AS OF JANUARY 1, 2019**

**APPENDIX C – ACTUARIAL ASSUMPTIONS AND METHODS**

**B. Actuarial Methods**

**1. Asset Valuation Method**

The method used to value plan assets for funding purposes (i.e., for minimum funding purposes under IRS Code Section 412 and for deductibility under IRS Code Section 404) is that described under Approval #15 of Revenue Procedure 2000-40.

At 1/1/07, the actuarial value is set equal to market value. Going forward the actuarial value is taken to be the market value of assets less unrecognized returns (or plus unrecognized losses) in each of the last five years. An unrecognized return is equal to the difference between the actual return on the market value and the expected return on the market value and is recognized over a five-year period (20% in the year incurred, and an additional 20% in each subsequent year until fully recognized). The actuarial value is further adjusted so that in no event will it lie outside a range of 80%-120% of market value.

**2. Funding Method: Unit Credit Cost Method**

The cost method for valuation of liabilities used for this valuation is the Unit Credit method. This is one of a family of valuation methods known as accrued benefit methods. The chief characteristic of accrued benefit methods is that the funding pattern follows the pattern of benefit accrual. The normal cost is determined as that

portion of each participant's benefit attributable to service expected to be earned in the upcoming plan year. The actuarial liability, which is determined for each participant as of each valuation date, represents the actuarial present value of the portion of each participant's benefit attributable to service earned prior to the valuation date.

**3. Changes in Methods Since Last Valuation**

None.
